Hi all,

My apologies that this took a bit longer than expected, but attached here are the transcriptions of the remaining CDs. They do contain many inaudible gaps—similar to the ones I did in the Spring—but they did not turn out as badly as I'd anticipated! At the top of each transcription, I've provided what info I could gather as to who is speaking where. The title of each file is the Track # and its length (e.g. Track 1-3217 is Track 1, which is 32:17 minutes).

Most of these are from the Tribute to Sperry that took place in California—if I'm correct, in the spring of 1994 shortly after Sperry's death. There were also several interviews between a male (who may have been a friend) a female (who may have been Norma) pertaining more to Sperry's personal life. Dr. Puente might be better able to figure out the speakers in these.

Let me know if you have any questions! Hope all is going well. Very best

Amanda P.
