New neuroscience chapter to hold initial program

The newly chartered North Texas Chapter of the Society for Neuroscience will hold its inaugural meeting at 8 p.m. Wednesday at Callier Hearing and Speech Center.

Dr. Roger W. Sperry, Hixon professor of psychology at California Institute of Technology, will speak on "Brain Organization and Disfunction." Sperry is one of the nation's outstanding researchers on the brain.

The new chapter is open to members within the medical profession who work primarily with brain function and nervous reactions such as neurologists, speech therapists, psychologists, physiologists, neurochemists and others in the specialized field.
